

ANA Membership Assembly Delegate

Prudence Musser, MSN, RN

Retired, June 2022

West Milton, OH

Candidate Statement

I am interested in serving on the ANA Ohio Delegate Committee because I believe I still have valuable knowledge, experience, and perspective to contribute to the nursing profession. Although I retired from active nursing practice in 2022, my commitment to nursing remains strong. Throughout my career, I worked in a variety of clinical settings and earned a Master of Science in Nursing. I also held certifications in Gerontology and Neuroscience, which provided me with a broad understanding of patient care and healthcare systems. As a retired nurse, I have witnessed many changes in healthcare over the years and recognize areas where continued improvement is needed. I also maintain close connections to the profession through family members who remain active in nursing today. These relationships help me stay informed about current challenges and opportunities facing nurses. My participation in the ANA Ohio Bootcamp 2026 strengthened my understanding of how nurses can influence policy and advocate for positive change. I have attended every ANA Ohio Annual Meeting since the organization's inception and currently serve on the ANA Ohio Finance Committee. I am excited about the future of ANA Ohio and would be honored to represent our organization in Washington, D.C., helping ensure that nurses' voices are heard at the national level.
