

ANA Membership Assembly Delegate

Meghan Ramic, DNP, RN, CPHQ

West Market Manager, Quality Institute Operations Quality,
Infection Control, and Accreditation University Hospitals Health
System
North Royalton, OH

Candidate Statement

I am honored to express my interest in serving as an American Nurses Association (ANA) Membership Assembly Delegate. As a nurse leader committed to advancing quality, patient safety, and professional nursing practice, I am passionate about ensuring that the voices of nurses are represented in shaping the future of healthcare. In my current role as Market Manager, Quality Institute Operations, I collaborate with clinical and operational leaders to drive quality improvement initiatives, enhance patient outcomes, and support strategic organizational priorities. My experience in healthcare operations, performance improvement, stakeholder engagement, and change leadership has strengthened my ability to analyze complex issues, build consensus, and advocate for meaningful solutions. My interest in serving as a delegate is strengthened by my previous participation in the ANA Membership Assembly, where I gained valuable insight into the policy-making process and the critical role delegates play in representing members and influencing the direction of the nursing profession. That experience reinforced my commitment to professional advocacy and inspired me to become more actively involved in advancing issues that affect nurses, patients, and the healthcare system. As an ANA Membership Assembly Delegate, I would bring a collaborative, thoughtful, and forward-thinking perspective, grounded in both frontline nursing experience and healthcare leadership. I am committed to engaging with colleagues, representing diverse viewpoints, and contributing to discussions that advance nursing excellence, equity, innovation, and patient-centered care. It would be a privilege to continue serving the profession and supporting ANA's mission on behalf of my fellow nurses.
